

ACKNOWLEDGEMENTS

This project could not have been completed without the assistance of many helpful people. Our appreciation goes out to Dwane Hinson and Tim Ethridge of USDA-SCS and to Jerad Bales of USGS for their assistance in providing information needed for the selection of our site. Our thanks to Linda Leigh for assistance in preparing tables and graphs for the report. A special thanks goes out to Devendra Amatya for his tireless effort in running many of the simulations used in this study. We appreciate Dr. Robert Holman and Dr. B. J. Copeland with the A/P study for their assistance and support of this project.
